

## Full time • Lead Infrastructure Engineer

Are you looking for a new and exciting green field project? **ValutaChange** is an aspiring new company which will fundamentally change the way we think about digital values. Come join us and help building a new, modern and flexible platform which shifts the focus to the user and significantly differs from other competitors currently on the market. We're looking for talented engineers willing to shape our core engineering team, either on-site in Germany or remote.

---

### Role description

- ▼ **Cloud Architecture:** Design and implementation of our AWS cloud infrastructure and service topology using Kubernetes & Helm
  - ▼ **Site Reliability Engineering:** Responsible for observability solutions (monitoring, alarming, logs, metrics, traces, etc...) around our cloud infrastructure and service topology on QA, staging and production environments as well as resolving incidents
  - ▼ **DevOps:** Automation of builds, tests and deployments using GitlabCI, configuration management, improving existing development processes and tools, etc...
- 

### What we're looking for

- ▼ B. Sc. Computer Science or equivalent experience
  - ▼ Demonstrated experience in maintaining critical production cloud infrastructure environments, orchestrating distributed services on k8s derivatives and driving observability solutions
  - ▼ Solid understanding of:
    - ▼ Building and maintaining distributed systems on AWS cloud infrastructure
    - ▼ Observability solutions such as DataDog, ELK, Grafana stack, or similar
    - ▼ Infrastructure as Code
    - ▼ Implementing and Maintaining CI/CD pipelines on GitlabCI
    - ▼ k8s controllers like ArgoCD
    - ▼ Shell Scripting, CI/CD Pipelines, Containerisation, Server Provisioning, Monitoring & Alerting, Backups, Disaster Prevention & Recovery, Incident Management
-

## We appreciate if you also have

- ▼ Excellent social skills, mentor- and leadership
  - ▼ AWS solutions certificate, CKA or similar
  - ▼ Well spoken and written in English, German is a plus
- 

## What we can offer you

### Modern working environment

- ▼ We value your dedication and offer salary progression plans directly linked to project performance.
- ▼ Your experience and ideas are always welcome, we want to hear them.
- ▼ Modern technologies and standards are the foundation of our teams.
- ▼ Active support for your training and career progression.

### Team Confidence

- ▼ Regular team get togethers in a relaxed and friendly environment - all contributions and suggestions welcome
- ▼ Relaxed atmosphere along coworkers and almost no hierarchy
- ▼ Company culture with focus on individual requirements, such as family, health and leisure

### Freedom

- ▼ Free choice of working equipment (hardware, operating system, etc ...)
- ▼ No time tracking or fixed hours outside of meeting clusters
- ▼ Work remotely or enjoy the atmosphere in our office
- ▼ Live and work in one of Europe's most picturesque towns
- ▼ Active child care support

### Free Snacks

- ▼ Coffee, tea, fruit and more
  - ▼ Everything procured from sustainable fair trade or local suppliers
-

## Our screening process

1. Send in your CV and anything else you want to show us to [apply@valutachange.de](mailto:apply@valutachange.de).
2. We try to get back to you within a week with **individual feedback**.
3. **Relaxed first call:** Is our project and our mentality a fit for you? (if so, we will ask you to sign an NDA at this stage)
4. Depending on your background, we might ask you to submit a **small take home assignment** (it doesn't take long, we promise) or share your public portfolio with us.
5. **Technical call with our CTO.**
6. Final **feedback**.
